

**AQUA·AID**

# Remediator™

**Polyacrylamide  
Soil Conditioner**

## GENERAL INFORMATION

**Remediator** is a liquid formulation of calcium chloride, surfactants, and a water soluble polyacrylamide that aids in remediating sodium and/or salt problems, water drainage problems, and problems associated with poor or reclaimed irrigation water.

**Remediator** can also be used in seeding applications. **Remediator** is safe to use on all warm and cool season grasses, including golf course greens. It can be applied to bare ground and ornamental plants and can be used any time of year except when the ground is frozen.

## CONDITIONS OF SALE

### WARRANTY AND LIMITATION OF LIABILITY

AQUA-AID, INC. (Seller) warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

9.51 Lbs/gal at 68° F (1.14 Kg/L at 20° C)

### NET WEIGHT

## CONTAINS NON-PLANT FOOD INGREDIENTS:

### Active Ingredients

25%	Calcium chloride
1%	Polyacrylamide
1%	Non-ionic polyols
73%	Inert ingredients

## DIRECTIONS FOR USE

Apply **Remediator** at 32 oz. per 1,000 ft<sup>2</sup> or 11 gal. per acre in sufficient water to apply material evenly over application site (100 L/ha). Water after application to move the material into soil. Apply monthly until optimal soil condition is obtained. Annual or biannual treatments may be needed for continued maintenance of the soil. For faster results, the application rate can be doubled or tripled. **Remediator** can be applied by broadcast sprayer, hand sprayer or fertigation system.

### Shrub and Tree Plantings

Mix 2 oz. of **Remediator** per gallon of water (16 ml per liter). Pour 16 oz. of mixture in the planting hole for each gallon size of container (125 ml of mixture per liter size of container).

### Seeding Applications

After seed has been broadcast, apply **Remediator** as it would be applied to turf. Its use will hold the seed in place and help prevent erosion.

**Remediator is NOT compatible with products containing sulfates or phosphates.**

## AQUA-AID GUARANTEE

Remediator comes with a 100% money back guarantee. If you are not satisfied with Remediator for any reason after trying the product at recommended rates, AQUA-AID, INC. will refund your money in full.
